## Autoclave Specifications

- Capacity: 250-1200liters
- Stainless steel (L316)
- Smart control system (PC)
- Equipped withthermaldryersandvacuum
- Equipped withpre-vacuum
- HMIdisplay
- Equipped withpneumaticvalves
- Minimum energy consumption
- Two Guillotine entrance and exit doors
- Outlet condensation of gases and steam
- Noodor andmoisture
- Smartdetection ofload capacity
- Four separatesmart operational programs
- Sterilization capacity of 121and 134° C
- Stainless Steel installation and piping
- Europeanstandard parts
- Stainless steel chamber
- High safety
- Equipped with sterile cycle recording printer connected and controlled over a
- network
- Operator-friendly interface
- 24 months extendable warranty
- 10 years of service
- Two shelf combination

# Hc300
